CHICKERING & SONS, PIANOFORTES. THE subscribers take pleasure in informing the public that they have been appointed Sole Agents for these Celebrated Instruments for the State of Rhode Island, and they would invite special notice to their intention of offering for sale at their NEW WAREROOMS a larger and more complete stock of Grands, Uprights and Squares, made by this Celebrated Firm, than has previously been exhibited in this city. The subscribers have been conscious of the extraordinary merits and sterling qualities of the CHICKERING PIANOS for many years. This has resulted from a large experience in the sale of Pianos, many of which were from the best makers in the country and a careful observation of the various points of excellence attained by each particular maker, together with the opportunities afforded from their close connection with the Musical World, of hearing the most unanimous opinions of the greatest artists in favor of the Chickering Piano, and finally, upon witnessing the last and crowning triumph at the recent Paris Exposition over all the most celebrated makers in the world. The peculiar points of superiority to be found in the Chickering Pianos have been so frequently and minutely retailed by the Press that we do not consider it necessary in the Card to comment farther upon them. We shall keep in connection with the above, a choice assortment of PIANOS from good and reliable makers at a lower price. CORY BROTHERS, No. 120 Westminster-St., sept24—1y

ZEPHYR OVERSHOE. PATENT APPLIED FOR. THE utility, cleanliness, and comfort of the overshoe for Winter wear, has demonstrated the necessity of an article suitable for the damp or wet days of the other seasons of the year, when the ordinary overshoe produces discomfort from its weight, warmth, and non-ventilation. The ZEPHYR OVERSHOE now offered for public patronage, combines the following characteristics: They are thoroughly water-proof, both sole and upper, which can be tested by filling them with water to the very top, without leaking a particle. The upper is made of a peculiar cloth, which, although resisting water, yet can be breathed through freely, thus permitting the escape of insensible perspiration, and rendering them cool to the foot on the hottest day. The binding made of a patented material, being partially elastic, keeps the shoe snug to the foot, avoiding that disagreeable slipping at the heel, and gaping at the quarter, common to the ordinary sandal now in use. A pair weighs but four ounces, occupies when folded a very small space, and can be carried, when not in use, in the pocket or reticule. For sale at SEABURY'S Shoe Store, nov21 134 Thames Street.

RED JACKET AXE! The Red Jacket Colburn Patent Axe is a splendid tool, for these reasons: *First*—The Red Jacket cuts deeper than the common bit. *Second*—It being round on the cut, it does not stick in the wood. *Third*—Every chopper with the common axe must discover that there is as much labor and strength expended in taking the axe out of the cut as in making the blow. *Fourth*—This with the Red Jacket is all avoided, and from one-third to one-half the labor is saved in cutting the same quantity. *Fifth*—By putting in the same labor that is necessary with a common axe, you can easily make at least thirty-three per cent. more wood in the same time. The great demand for this axe has compelled us to establish eastern agencies as follows:—Heaton & Denckla, Phila., Pa.; Hart Manufact'g Co., New York; Welch & Griffiths, Boston, Mass.; W. H. Cole, Baltimore, Md. LIPPINCOTT & BAKEWELL, Manuf'rs and Sole Owners of Colburn's Red Jacket Patent, Pittsburg, Pa.

THREE FEMALE LEADERS OF WASHINGTON SOCIETY.—Under that ambiguous term of "Society," there are many ladies here who are presumed to lead it. Mrs. Sprague, Mrs. Chandler and Mrs. Morgan are among them, all three taking rank from their wealth and establishments; the former also from her public graces and natural social accomplishments. I do not know that any of these ladies, if poor, would be distinguished as "Queens of Society," which is, I believe, the terms used in fashion-books and annuals. Mrs. Sprague is a very slender and delicate lady, without the repose of the Vere de Veres, being rather a nervous and nail-biting beauty capable of strong affection and jealousy, I should say, and upheld in her labors to please by the strong ambition she inherits from her father. I can imagine her, poor, holding the place of public school teacher—a position where I am warranted in supposing her, because of her father's life long interest in Democratic education. Well as a school teacher, she would charm the directors, be quoted, be a very interesting young girl, receive bouquets from the girls on New Year's day, and be asked a good many questions as to what dresses would be becoming, and whether blue eyes in a man were a sign of a deceitful nature. Finally the youngest and richest director would fall in love with her. Everybody would have sympathy for her and congratulate her. She would step into society where she is, so naturally, that afterward people would say: There is no queen about her at all. She is just the same girl she was when she taught school! To be a queen, you know, one must strut a little, swing a 'train'—or trail, which is the same—and look scornfully out of the front window upon peanut-boys and shoe-blacks. Mrs. Sprague is not a queen, I am warranted in saying. Mrs. Chandler is a little more "on" that order, holding herself very straight and statuesque. Mrs. Morgan is merely a banker's wife, who rides beside her husband in a respectable brougham, looks as if born to the use of silver plate and service china, and she gives you a feeling, when she looks at you, as if you would greatly like to have her for an aunt.—*Washington Letter.*

HOW TO REDUCE GAS BILLS.—One of the best and simplest methods of regulating the consumption of gas is by controlling the pressure at the meter. The pipes laid by the gas company from the street mains to the meter are always large enough to supply all the burners, but as there are few occasions during the year when they are all in use, the pressure on the few which are lighted nightly is too heavy, and causes a great waste of unconsumed gass at the burner. The simple turning of the cock connected with the burner does not fully correct the evil. Having experimented in this matter, we give the following simple rule, which, if strictly followed, will be found to make a considerable reduction in gas bills: First, light the number of burners ordinarily used, turning on the full head of gas, and regulate the lights by turning the stop-cock which lets the gas into the meter. This prevents the pressure of gas from causing the index to move too fast. The greater the pressure of gas on the meter the faster it moves, and the larger the gas bill. Second—from the time the gas is usually lighted until 8 1-2 or 9 o'clock, the pressure is the same. After the stores and shops are closed, of course the pressure becomes greater on the meters in use, and the stop cock should be turned at the meter so as to regulate it. An observance of these directions may entail some trouble, but at a trifling cost a rod can be connected with the supply cock which is ordinarily located in the cellar, so that the supply can be regulated at some convenient place in the house. Many persons pay almost as much for gas that is wasted as for what they consume and the waste may be entirely prevented by following these rules.

One of the rights demanded by the ladies of the *Revolution* and their fair disciples is the right to decent treatment at hotels. On this subject the *New West* of St. Louis says:—

In most states of the Union no woman unattended can find admission to a hotel. Whether she be young or old, whether of respectable appearance or not, she is rejected unless she can prove her respectability no easy thing to do on arriving in the dead of night, when the whole city is asleep. When Mrs. Minor, an elderly lady, the president of the Woman's Rights society of this place, went to Washington about two weeks ago, to take part in the convention, she was subjected to most painful embarrassment in being refused admission at Willard's Hotel. No less disagreeable was the experience of the president of the "Chicago Sorosis," who arrived here at 1 o'clock at night, and was denied entrance at the Planter's House. Mrs. Livermore, however, belongs fortunately to that class of women who are not easily intimidated. She seated herself, and insisting on her own good right, ordered a room, declaring that she would not leave the house. In five minutes it was given her.

Miss Anthony has undertaken to bring about a different order of things in this respect, and we have but little doubt of her speedy and complete success. Hotel-keepers must, of course, be allowed to protect themselves against the incursion of undesirable lodgers, but they can do this without insulting ladies of known respectability, who may happen to knock at their doors after nightfall unattended by male protectors.

'IT WAS MY BROTHER'S.'—While passing rapidly along Broad street yesterday afternoon, we saw a little boy seated on a curb-stone.—He was apparently about five or six years old, and his well combed hair, clean hands and face, bright though well patched apron, and his whole appearance indicated that he was the child of a loving though indigent mother. As we looked at him closely, we were struck with the heartbroken expression of his countenance, and the marks of tears upon his cheeks.—Yielding to an impulse which always leads us to sympathize with the joys and sorrows of the little ones, we stopped, and putting a hand upon his head asked what was the matter. He replied by holding up his open hand, in which we beheld the fragments of a broken, tiny toy—a figure of a cow.

'Oh, is that all? Well, never mind it,—step into the nearest toy shop and buy another;' and we dropped a dime into his hand. 'That will buy another, will it not?' Oh, yes,' he replied, bursting into a paroxysm of grief, 'but that was little brother Tommy's, and he is dead!' The wealth of the world could not have filled the vacancy that the breaking of that toy had left in his heart. It was Tommy's and he was dead. —*Pennsylvania State Guard.*

The New Administration.

Matters at Washington are rapidly crystalizing into definite and permanent shape. The cabinet, as remodeled, is unexceptionable and gives general satisfaction. A few noisy politicians doubtless feel disappointed that their advice and consent were not asked at every move made by President *Grant*, and that the leading positions were not filled by selections from their numbers, giving fat side takes to the balance. But the President preferred to call to his aid statesmen of tried and sterling integrity, and in doing so he gratifies, and receives the confidence of people of his nation. The wisdom of his course is further shown by the steady strengthening of our credit, at home and abroad.

Though President Grant may truthfully be said to have ignored the mere politicians, he is far from being open to the charge of giving any indications of a desire to thwart the wishes or deviate from the well-settled principles of his party. Thus far, his appointments to office have been of strictly representative men of the party, or of those whose past services have thoroughly identified them as sterling republicans. They are also men of ability and acknowledged worth, fit to be trusted with the important duties committed to their hands. They likewise represent the interests and sentiment of the different sections of the country, and are judiciously selected, as far as may be, so as to give each section a fair proportion of the leading offices. The single exception in the Cabinet is understood to be of a temporary character. The strong desire to have so able and trusty a man as Mr. Boutwell at the head of the Treasury, after Mr. Stewart's disabilities were shown to be irremovable, led to this second appointment from Massachusetts. It now seems likely that a western man—perhaps Mr. Wilson—will be selected for the Attorney Generalship, and that Mr. Hoar will be given some equally honorable position, outside of the Cabinet, where his acknowledge abilities as a jurist will be rendered available to the country.

That the interests of the South or any section of the Union, will not be overlooked in President Grant's administration, we think is already made apparent, if any demonstration were necessary. That the President desires peace, and is determined to peserve the peace, is seen in the disposition he has made of the military leaders under his command. That he aims to do all he can consistently to effect reconciliation, may be inferred from his making Gen. Longstreet, Surveyor of the Port of New Orleans. We believe his policy will be to appoint to places of confidence and trust such of the southern leaders as show themselves disposed to accept the situation and labor for the peace and prosperity of the south and for the promotion of the welfare of the Union. His repeated expressions of a desire for the enforcement of the law, for the security of person and property in the South, and for her complete restoration to fraternal relations with the North, and to the full enjoyment of all her ancient rights and privileges in the Union, we do not consider mere idle words. We believe they are sincere, and that both sections of the Union, will yet have cause to rejoice that Ulysses S. Grant was chosen President of the United States. "Give us Peace."

General Grant and the Tenure of Office Law.

It is said that the Republicans in Congress and especially in the Senate, begin to feel the embarassments of the tenure-of-office law in a way that comes very closely home to them. They cannot be supposed to favor the retention in office of the thousands of incumbents, who were appointed during Mr. Johnsons term, and they have all personal or political friends of their own for whom they desire these positions. And it is well understood that while General Grant is disposed to consult their wishes, and so far as possible gratify their preferences, in the matter of removals and appointments, he feels it utterly impossible to make many changes so long as the Tenure of-Office-law remains in force. He cannot remove any one from office except upon charges which must seriously damage his personal character—and this he does not feel disposed to do except in cases so flagrant as to remove all doubt and leave him no alternative.

We cannot help thinking that motives of this sort, aided by the evident justice of the case, will induce Congress to repeal the law, so as to leave the President absolutely free to make such removals as the good of the public service may require. If ever any President was entitled to be free in this matter at the outset of his administration General Grant certainly is. He has earned fully and fairly from the Republican Party the confidence which a repeal of the law would imply. And certainly there has never been a time when the purity and efficiency of the public service required so vigorous and untrammeled an exercise of the Executive power as at the present moment.

We trust the law will be speedily repealed, and the President's hands thus untied —*Times*.

A NEWSBOY'S VERACITY.—The newsboys are not always as truth-telling as they might be, as the following colloquy shows: "Have you seen the perclession?" said one of them to his mate, this afternoon. "In course I have," replied the other. "Was it long?" "Was it long?" reiterated the second. "I guess it was, for the *Journal* has got a dispatch stating that the head has just arrived at Providence."

[For the Daily News.]

The Drunkard's Asylum and Prohibition.

Sometime since the project was conceived by some of the members of the General Assembly, or, perhaps, conceived for them, so to dispose of the money arising from the sale of intoxicating drinks, that it should be esteemed by the people one of the greatest charities of the age. How often these gentlemen met, and how much labor was bestowed upon this wonderful project, the outside world has never learned; but, in due time the business took such form, that it was reported, in a crude state to the house and with the consent, if not with the desire of its friends, laid upon the table, when it was hoped by the better portion of the members, it would be permitted quietly to rest, and, this hope was more encouraging as the day of adjournment was so near at hand. It appears however, that there was more life in it than was seen by outsiders, and, a few days since, it was called up for action, and an endeavor made to consumate the scheme in quite a hurry, even before it should be so examined as its merits, (if it has any, which is more than doubtful) required. The wonderful scheme is to purchase that island of rocks in the bay known as Hog Island, and thereon to erect such buildings as are necessary for the accommodation of the drunkards and lunatics of the several towns, where they can be treated, and when reformed and cured be returned to their homes. The cost we are informed, will be so trifling, as hardly to be thought of, and the certainty of its future support, so certain, from the source before named, as to make it quite probable that a revenue will be derived from it at no distant day. It might have been put through with a rush, but for that evil spirit that ever is sure to be manifested, when anything of importance is to be done outside of the City and Country of Providence, the members from which section determining to have it within their limits, or to strangle it in the bud, which last, it is hoped, has been successful.

Without intending to expose all or even a part of the fallacies, made use of to commit the members to a project for the continuence of the license system for an indefinate period, *as was above intended*, let us propose a better, a more rational and certain cure for drunkards and lunatics, and with it also; to cure the misery in thousands of homes. This will require no funds to inaugurate it, and will be certain to pay a large revenue to the families of the drunkard, in all parts of the State. *Prohibit the sale of alcohol for a beverage*, and you need no Asylums for drunkards, and their cure is certain. Every thing else has been tried and has failed, and must fail, for you cannot turn an evil into a blessing with the shield of law. The sale of intoxicating liquors as a beverage, as reiterated a thousand times before, is the greatest of all evils, and nothing will save the drunkard, or the people from drunkenness but prohibition. *No one doubts this*:—Then why not try it? Why keep on licences and sell the right to ruin families after an experience of hundreds of years has demonstrated, that for every dollar received, a score has been lost? And it cannot be otherwise. "If you sow to the wind, you shall reap the whirlwind.

BOSTON MUSICAL FESTIVAL.—A Boston Correspondent of one of our Exchanges says the great National Peace Jubilee which is to be held in this city on the 15th, 16th and 17th of June, engrosses public attention at the present time. There have been rumors that the affair would be postponed until fall, but such is not the fact. It will take place on the days first designated, and is certain to more than meet Mr. Gilmore's early anticipations in regard to magnitude and brilliancy. Our wealthy citizens have taken hold of the project with earnestness and are raising a guaranty fund which will ensure beyond all shadow of doubt the financial success of the undertaking. Mr. Eben D. Jordan, of the well known firm of Jordan, Marsh & Co., has consented to act as Treasurer of the Festival. The construction of the great building will be begun in a few days, but it is not yet decided whether it will be placed on the Common or on the Back Bay lands. The organization of the mammoth chorus and orchestra has been already entered upon. The former department is in the able and energetic hands of Mr. E. Tourjee, the Director of the New England Conservatory of Music. Mr. Tourjee has already received numerous letters from all parts of the country proffering the services of choral societies already formed or forming. Ohio, even, will send a large delegation. On the 23d inst., Mr. Tourjee will inaugurate a series of rehearsals for the Boston singers. The application for tickets indicates a very strong interest on the part of vocalists of the city and vicinity. The rehearsals are to be held at Bumstead Hall, under the direction of Mr. Zerahn, who will also conduct the oratorio choruses and symphonies at the Festival, and different divisions will meet on different nights, as the halls will not accommodate all at once. A circular has been issued, giving all needed particulars regarding the formation of choral bodies elsewhere, and others will be sent out from time to time, up to the date of the Festival. Indeed, Mr. Tourjee has so systematized his labors that an immense choral force will be built up without great effort. We are glad to hear that there are indications that "Little Rhody" will be well represented on the occasion. That the Festival will be of lasting benefit to art, not only through the formation and perpetuation of singing societies, but also by fostering among them as well as in the community of hearers, a love for all that is perfect and best in its domain, is a fact lost sight of by many who who look upon the affair solely in the light of a great and glorious celebration.

Speaking of Mr. Tourjee, reminds us that the Conservatory of Music of which he is the head, has recently entered upon the third year of its successful career, with an increased number of pupils. No less than 3,241 pupils attended the Conservatory during the first two years it was in operation. A Chicago institution of the kind claims to be the oldest Conservatory in the country, but Mr. T. incidentally mentions some facts in his annual report which go to prove the contrary. He says that ten years ago an institution known as the Musical Institute was founded in Rhode Island, in which the system of class teaching, as now pursued in the New England and other Conservatories, was first adopted in this country. Six years later, a charter for the Providence Conservatory was obtained, and, soon after, similiar institutions were established in New York and Brooklyn. Two years subsequently the New England Conservatory was organized, and from the time of its opening it has continued to grow in favor with the community.

STATION HOUSE.—One person only was committed to the Station House last night, for drunkenness. Two lodgers were also provided for.

SAINT PATRICK'S DAY.—This day was duly celebrated in this city yesterday. The Aquidneck Rifles and the various Irish societies, forming a very fine procession, passed through the streets and were reviewed on the Parade by His Honor the Mayor. The band from Fort Adams furnished the music, and those especially interested seemed to enjoy the occasion in the highest degree. In the evening there was service at the church according to the usual custom of the Irish Catholics. The eulogy by Rev. Father O'Connor is said to have been a fine address worthy of the time and the occasion.

Supreme Court.

In the case of David Peters, the jury retired at a quarter before eight o'clock, and after being out but a few minutes returned with a verdict of guilty. He was sentenced to fifteen years in the State Prison.

In the case of State vs. Philip St. Lawrence, the jury were unable to agree. It is understood that they were divided, six for conviction and six for acquittal.

William H. Sherman, whose case has been previously reported was sentenced to two years in the State Prison.

John Eliot received a similar sentence for one year.

The Court then adjourned until the fourth Monday in April.

ST. PATRICK AND HIS DAY.—The Roman Catholic Church celebrated yesterday, the 17th of March, as the festival of St. Patrick the patron saint of Ireland. Although a great amount of legendary matter has gathered about the name of St. Patrick, there is no question that he was a genuine historic character, and, unlike the patron saint of England, a most estimable man. He was a Scotchman, however, by birth, having first seen the light near the mouth of the Clyde in 372. He died at Down, in Ulster, probably in 461. At the age of sixteen he was carried captive to Ireland, from which he soon after escaped. Carried there a second time, he resolved to become a missionary to the people, and after preparing himself for many years, he was ordained, and afterward consecrated Bishop. He passed over to his chosen field of labor about the year 432, and preached the Gospel with such effect that he was instrumental in effecting the general conversion of the country. Among the popular legends of Ireland is that which attributes to St. Patrick the banishment of all venomous creatures from the island by means of his crozier or staff.

LUDICROUS SCENE IN A CHURCH.—A ludicrous incident occurred in a church at Chicago on Sunday last. A lady convert, about to be inducted into the church by the solemn rite of baptism, stood up before the altar, with her bonnet remaining upon her head. The priest, believing that her failure to remove this article of apparel arose from ignorance of the ordinary mode of administering the ceremony, proceeded to untie and lay it off himself. The horror of the holy man can hardly be imagined, as he discovered that in the operation he had removed all the hair from the lady's head, which, but a moment before, hung in graceful curls, and was the envy of many of her sister worshippers. The consternation of the priest was strongly depicted on his countenace, as he held in his hand the bonnet with what appeared to be the scalp of the lady, and the audience, filled for an instant with amazement at a sight that involuntarily recalled the dread scenes of Indian warfare, comprehended the state of the case in an instant more, and were convulsed with merriment, which the solemnities of the occasion only prevented from becoming hearty laughter. As it was, the most pronounced "snickers" were heard from all parts of the audience. The lady, it seemed, was afflicted with baldness, and had been at great pains to prepare a neat wig, which, for convenience and its better preservation, she had carefully fastened to the inside of her bonnet.

POLITICAL.—One of the peculiarities of the New Hampshire election was the fact that for the first time in the memory of man, the town of Sandown gave a Republican majority, and elected Major George Marston a stanch Republican, for Representative.

A Washington special says that no appointments will be made in Connecticut of any sort until after the election, and persons insisting upon circulating petitions for offices in the midst of the canvass will fare badly. Postmaster General Cresswell favors a clean sweep of all men who do not heartily support the Republican candidates.

The House members, says a Washington correspondent, are exceedingly impatient for a final adjournment. Senator Sumner says, however, that Congress can't get away for six weeks, and Mr. Hamlin, of Maine, agrees with him, but it is said they are both friendly to a long session.

Vice President Colfax's old district in Indiana having been divided, has now in Congress the Vice President, a Senator and two Representatives.

We have reports from Memphis, New Orleans and other parts of the South, that negro labor is in greater demand this Spring than ever, and higher wages are offered to colored hands for plantation and other work than in any previous year. This is the very best sign of the growing prosperity of the Southern States. There are enough hands, black and white, now in the South to raise four million bales of cotton this season, and if that amount of the great Southern staple is prepared for the markets of the world, it will give the Southern people a sufficient supply of ready money to form a splendid basis of future power.

HAY BURNED.—Three stacks, containing seven tons of hay, belonging to George Larned, esq., of Hamilton Village, Wickford, was set on fire on Monday last and burned. It was the act of three boys, who were arrested and will be sentenced, as they have confessed the crime.

How Co-operative Housekeeping will Promote the Health of Women.

After what I have already said about the responsibilities of women in regard to the study and practice of medicine, it follows that I should hope to see a great stimulus given to it by co-operative house-keeping; for then, if any women possessed a peculiar gift for it, the association could take care of the bulk of her domestic concerns for her until she had received a regular medical training, and was qualified to be put in charge of the health department. Should she, out of respect to the resident physicians, decline to practice medicine, still she will have a noble function in the prevention of disease and physical deterioration, and in the assisting of physical development. She will keep a strict eye on everything that goes out of the kitchen and clothing-house, to see that nothing injurious to health, either in food or clothing, be ignorantly adopted by the community, and that whatever is necessary to bodily well-being and beauty be in constant use in every family.' Defective teeth, thin hair, pale cheeks, flat and narrow chests, spindling legs and arms, bonies and wrinkles instead of roundness and dimples,—all this melancholy physical deficiency that haunts society and makes home unhappy, exists because we do not know how to live physically; because we are ignorant of what elements should preponderate in food and drink, in order to conteract the effects of our dry and stimulating climate; because we do not make our own and our children's muscular development in gymnasium and in the open air a solemn duty, or care what hours we keep, and what injurious customs we follow. The judicious head of the health department will, however, gradually change all this; and when the new generation grows up she will point with pride to the blooming Hebes and Junos all about as the just results of her enlightened physical teaching. Even before the children are born, she will watch over the expectant mothers, that the formation of the new human beings may go on with every favorable concurrence; and I suppose that in this connection a mass of phenomena is waiting to be studied by acute and experienced doctresses, of which the medical world little dreams. Another function of the co-operative doctress would be the training of her staff of nurses. It is in sickness, indeed, that perhaps co-operative housekeeping would shine the brightest.—Some of these nurses will, no doubt, be ladies who love the work for its own sake, and it would be well if each congregation represented in the association could have one or two of such Nursing Sisters, as they might be called, trained and ready to their pastor's need. The pillow of many a poor sufferer is stuffed with thorns, as she reflects on the dirt and waste that may be running riot down stairs in her absence, or on the discomfort that may be added to the anxieties of the husband whom she loves. In co-operation however, neither sickness nor health would make any difference in the clock like workings of the great domestic machine. The Sisters would be trained not only in nursing, but in family management and the care of children, so that in case no relative of a sick mother could be called upon, her little ones would still be attended to. And I really think one angelic office of the co-operative kitchen would be the preparation of food for the sick. What exquisite delicacies would be sent in to tempt the fainting appetite! What wines and cordials would there be within the reach of all! and when the patient grew better, how easy to give her the needed daily ride in the carriage that would be kept by the association especially for its invalids!

Atlantic Monthly for March.

MILK.—Within a short time, public attention has been quite generally turned to the milk question in which almost everybody is interested. A writer in the New Bedford *Standard* says, and we agree with him fully, that the late astonishing revelations in regard to the milk trade in Providence, R. I., whose citizens, it appears, pay some $16,000 for water and other substances introduced into their milk, should awaken the minds of people in our towns and cities generally to a careful investigation of this most important article of human sustenance.—There are so many difficulties attending the procurement of good and pure milk that many prefer to do without it; for milk, unless from a healthy and properly fed and cared for animal, is perhaps one of the most unwholsome article of food. It is impossible to have a good cup of tea or coffee without good milk, for to have good cream the milk of course must be good.

Milk often tastes of the stable—this is owing to a want of cleanliness, and is far too common. Cows are often kept in filthy places, and the hands of the milker are often far from clean. The stable for cows should be kept clean by a constant attention to the removal of all their droppings, and the use of sand or sawdust as an absorbent of moisture. The milk from cows near calving is unpleasant to the taste, and probably unwholesome. Most farmers continue to milk their cows too late—a cow should be dried off at least two months before "coming in," and three is thought better. Cows require meal and roots, such as carrots, beets, &c., in the winter, to give milk a good quality. In fact, too much attention cannot be given to the selection of stock, proper shelter at all time, plenty of good hay, pasture and other feed, as well as pure water, on the part of farmers.

It is poor economy to keep a poor stock of cattle. In this respect we have much improved of late years; but there is still room for further improvement. It is hoped that all who are engaged in the milk business in this vicinity, will exert themselves to supply the best quality, and particularly a *clean* and *sweet* as well as pure article, and this cannot be done unless all the above rules are observed, and in this connection let me add, too much care to the cleanliness of the vessels to contain the milk, from the milking-pail to the measure, cannot be given.

I have thrown out these few hints for the good of all concerned, the consumers and the sellers of milk, and in conclusion it would suggest the practicability of having a milk inspector, which would meet the approval of every honest dealer as well as consumer.

MINISTER SHOT AT A MARRIAGE CEREMONY.—The Macon (Ga.) *Messenger* relates that Rev. Samuel Anthony, one of the oldest and most respected ministers of the Methodist Church in that State, was shot on the 10th inst. at Andersonville, while performing a marriage ceremony. It seems that Mr. Anthony, while marrying a couple, was interrupted by the step father of the lad, who ordered him to desist. He remonstrated with the intruder, telling him it was too late then, and that he ought not to be guilty of such unseemly conduct. The man's response was the raising and firing, at almost point blank range, of a double barrel shot gun loaded with buckshot, the entire load taking effect in the lower part of his victim's stomach. The brave old man fell to the floor, but by a tremendous effort raised himself up, and saying, "I will finish the job," proceeded with the ceremony and pronounced the couple man and wife. He then fell down completely exhausted, and it is believed cannot recover. Indeed his death was momentarily expected at last accounts.

GENERAL ASSEMBLY.

WEDNESDAY, March, 17.

Senate.

The Senate met at 11 o'clock, His Honor Lieutenant Governor Stevens in the chair.

Mr. Corliss, of North Providence, for the Committee on Finance, reported back the resolution providing for the appointment of a committee by the Governor to select and purchase a farm to be used for an asylum for insane poor, and for other State purposes, which, after discussion by Messrs. Anthony, Corliss, Hazard and Smith, was read and passed in concurrence.

Mr. Thurston, of Providence, for the Committee on the Judiciary, reported back the petition of Samuel Fessenden and others, for an act obliging railroad corporations to station flag men at all dangerous railroad crossings in the State, and the accompanying act, on recommendation of the Committee, was read and passed.

House of Representatives.

The House met at 10 1-2 o'clock a. m., Mr. Speaker Van Zandt in the chair.

The following documents which came from the Senate with a message on Thursday, were now taken from the table and disposed of:

A resolution of inquiry in relation to the expediency of removing the State Armory in Providence. Referred to the Committee on the Militia;

A petition of the Boston, Newport, and New York Steamboat Company, with an accompaning act passed in concurrence by the Senate with an amendment. The said amendment was read and adopted by the House in concurrence.

An invitation from the Board of Trustees of the Providence Reform School for the members of the General Assembly to visit that institution on Thursday of the present week at 2 o'clock p. m. The invitation was read and accepted in concurrence.

Mr. Bogert, of Bristol, presented a petition of Elijah Gray and others, with regard to seine fishing. Received and referred to the Committee on the Judiciary.

Judge Green, of Warwick, from the Committee on the Judiciary reported back a bill for an act in amendment of Chapter 164 of the Revised Statutes—"Of the Supreme Court," recommending its passage. The bill was read a second time, after which on motion of Mr. Sheffield, of Newport, it was recommended to the Committee on the Judiciary. The bill as reported, provides for a change of the times at which the Supreme Court shall hold its sessions in Washington county.

Mr. Bogert, of Bristol, presented two accounts of Weeden H. Berry, Sheriff of Washington county, against the State. Received and referred to the Committee on Accounts.

Mr. Barstow, of Providence, presented a memorial of the Executive Committee of the Rhode Island Temperance Union, which at his request was read and ordered to be communicated to the Senate. The memorial protests against the purchase of a farm, and the establishment of a State Asylum for the Insane Poor thereon, as had been proposed in a resolution introduced in the General Assembly, from the proceeds realized from the granting of licenses for the sale of intoxicating liquors, which is the chief agency in filling an institution of that kind with inmates.

Mr. Richmond, of Hopkinton presented a petition of Matthew C. Clark for payment of Justice's costs Received and referred to the Committee on Finance.

Also presented a petition of Gardiner Nichols and others for a repeal of the present liquor license law. Received and referred to the Committee on the Judiciary.

Mr. Cross, of Westerly, called from the table the special order of the day, which was under discussion at the time of adjournment on Tuesday, the report of the Committee on Education upon the Agricultural Department of Brown University, with an accompanying resolution. Mr. Cross said he was opposed to the measure proposed.

Mr. Clarke, of Providence, Chairman of the Committee on Education, then addressed the House in favor of the resolution, at considerable length, and examined the subject somewhat in detail.

The subject was further discussed by Messrs. Miner, of Cranston, and Bliss, of East Providence, in favor, and by Messrs. Freeman, of Smithfield, Sayles, of Providence, and Lawton, of Scituate, in opposition to the passage of the resolution.

It was then adopted by a vote of 31 to 30.

Mr. Aldrich reported the claim of the Burnside Guards, in Newport, for reimbursement of money expended for transportation, recommended. The claim was thereupon allowed and an accompanying resolution authorizing its payment, was read and passed.

After some other business the House adjourned.

Georgia.

It is exceedingly unfortunate that the State of Georgia has put herself in such a situation that it is difficult to say whether the best interests of herself and of the country will be better protected by meddling or by letting her alone. That the present condition of affairs is bad admits of no question, and there appears to be not the slightest probability that, left to herself, she will ever improve it. At the same time, we do not know what authority Congress or the President can assume in the matter. We look in vain for any unity of sentiment or concert of action. The Republicans are probably not a fair majority of the people, but they have the State offices, and the legislature is everything by turns and nothing long. A feud of the most bitter character has sprung up between the two wings of the party, and nearly all their strength is wasted in fighting each other. The democrats are bent on overturning all that has been done as soon as they get the upper hand. The slip-shod way in which the convention on the subject of a constitution did its work, among other evils, has left the order for a congressional election in the hands of the legislature, which body has refused to take any action. In this way, the Senate refusing to admit Messrs. Hill and Miller, the State is wholly unrepresented in Congress. Civil disorders are frequent, and the State government is one only in name.

But this inefficient State government has been recognized and its constitution approved, so that there is no excuse for interference. The only remedy for existing evils that suggests itself is a slow one. It is simply to let Georgia alone so far as legislation is concerned, and to concede its inevitable final restoration to the democratic party. Being in the majority that party can enforce order, and if, as is likely, a great part of the measures recently adopted be overturned, that will be an inconsiderable evil compared with the unsatisfactory state of things brought about by the minority government, at war with itself, which is now in power.

ARRESTED.—Two men by the name of Gorman and one by the name of Fanning, have been arrested in Greenwich on suspicion of having something to do with the recently reported sudden death of Mr. Hazard in North Kingston.

TELEGRAMS.

FROM WASHINGTON.

—o—

WASHINGTON, March 17.

The hotels are crowded and members of Congress were continually called from their seats by those seeking positions. Both Senators and Representatives are overwhelmed with letters from all parts of the country.

Additional efforts are being made to secure the appointment of Eleazar D. Bassett (colored) as Minister to Hayti. He is endorsed by the National Committee of Colored Men, Fred. Douglass, Downing, Langston and many others, white and black.

In the Senate this afternoon Vice President Colfax presented a memorial relative to the condition of affairs in Georgia, which Mr. Trumbull asked to be laid on the table, as the Judiciary Committee were reported to report on the subject this morning.

Mr. Sumner presented an elaborate memorial from loyal Texans, stating forth the frightful condition of affairs in Texas, stating that since Gen. Grant's election assassinations have averaged two per day in that State, all of which they attribute to "Johnson's policy." They ask as the only means of protecting the loyal people that the State be sub-divided into two or more military districts or territories. The memorial was referred to Judiciary Committee.

Mr. Trumbull, late in the afternoon, reported from the Judiciary Committee, without recommendation, the bill to enforce the Fourteenth Amendment in the State of Georgia and to secure to that State the Republican form of government to which she is entitled. Mr. Trumbull stated that the committee were equally divided on this bill, but the majority had agreed on an amendment which he now reported. Mr. Trumbull also reported from the same committee the credentials of Joshua Hill and H. B Miller, Senators elect from the State of Georgia, with a recommendation that they lie upon the table until the bill above mentioned is disposed of.

Mr. Trumbull did not concur with this recommendation, as he thought action should be taken immediately on these credentials, and he asked that the report be placed on file.

On motion of Mr. Chandler the President was requested to communicate to the Senate copies of the correspondence between James Buchanan, late President of the United States, and Lewis Cass, late Secretary of State, relative to the proper means to be taken to avert or subdue the rebellion which was then impending, and which led to the resignation of the said Cass.

There was some discussion on the proposition to authorize the New York, Newfoundland and London Telegraph Company to land their cable on the shores of the United States, but no decision had been reached when, at the expiration of the morning hour, the Senate resumed the discussion of yesterday on the Tenure-of-Office act, Mr. Edmunds having the floor.

President Grant has sent a small batch of nominations to the Capitol to day, but it is not known what they are.

WASHINGTON, March 17.

The joint commissioners of the British and American governments, to settle the Hudson bay and Puget sound difficulties will meet in New York to-morrow. Present for the British government, Hon. NEW YORK MONEY MARKET.

NEW YORK, March 17.

Money shows rather more activity, but brokers are able to meet their wants without difficulty at 7 per cent. on stocks and 6 per cent. on Governments. Some moderate amounts of currency are coming in from minor points, but as a whole the banks are poor and are keeping themselves in a conservative position from a wholesome regard to their liability to be called upon at any moment for a statement for the Comptroller of the Currency. Discounts continue quiet at 7½ a 10 per cent. for prime paper.

The London market shows a decline of ¼ a ⅜ on 5 20s in response to the higher price of gold and the introduction of the recognition of Cuba in the Senate. The bond market here has consequently declined slightly. There is, however, a steady, healthy demand, and dealers buy readily on the supposition that the present decline will prove only temporary.

REPORTED CAPTURE OF GENERAL CUSTER.

ST. LOUIS, March 16.

A Denver dispatch says Mr. Craig, just from Fort Lyon, reports on the authority of Major Ames, at Fort Lyon, that Gen. Custer was captured, about eight eight days since, while out on a scouting expedition. There are no particulars, nor does the dispatch say by whom the capture was made.

"I will give you my head," exclaimed person to President Lincoln, "if every word of the story I have related is not true." "I accept the offer," said the President; "presents of small value strengthen the bonds of friendship, and should never be refused."

AN IMPORTANT STATEMENT, IF TRUE.—The Richmond Whig says it learns from the best authority that about the time we were showing the door to the French troops in Mexico, the French Emperor consulted a distinguished Confederate then in Paris, as to the chance of reviving the Confederate struggle if he should determine to make war on the United States. It also states on authority little less reliable, that when an agent of the Confederate Government went abroad in the winter of 1864, Louis Napoleon asked him if the time had not come for him to take a hand. The reply of the agent was that he was instructed by Mr. Davis to say that he preferred to stand on his own bottom, and felt perfectly competent to do so.

"S. T.—1860—X—Early in the battle I was wounded, and carried to this spot by two clever 'Yanks.' How Hostetter's Bitters Cure Dyspepsia.

THE WHOLE STORY IN A NUTSHELL.

The office of the stomach is to convert the food into a cream-like semi-fluid, called Chyme. This is effected partly by the action of a solvent, called the gastric juice, which exudes from the coating of the stomach, and partly by a mechanical movement of that organ, which *churns*, as it were, the dissolving aliment. The Chyme passes from the stomach into the duodenum, or entrance to the bowels, where it is subjected to the action of the bile, and the nutritious portion of it converted into a fluid called Chyle, which eventually becomes blood.

Now, it is evident that if the great solvent, the gastric juice, is not produced in sufficient quantity, or if the mechanical action of the stomach is not sufficiently brisk, the *first process of digestion* will be but imperfectly performed. It is also clear that if the liver, which plays such an important part in changing the nourishing portion of the chyme into the material of the blood, is congested, or in any unnatural condition, the *second process* will not be thoroughly accomplished. The result of the *two failures* is *dyspepsia*, complicated with *biliousness*.

The mode in which HOSTETTER'S BITTERS operate in such cases is this: they invigorate the cellular membrane of the stomach, which evolves the gastric juice, thereby insuring an ample sufficiency of the fluid to completely dissolve the food. They also act upon the nerves of the stomach, causing an acceleration of the mechanical movement necessary to reduce the food to a homogeneous mass. They also act specifically upon the liver, strengthening it, and so enabling it to produce an ample and regular supply of bile, for the purpose of converting the nutritious particles of the Chyme into Chyle, and promote the passage through the bowels of the useless debris.

In this way, HOSTETTER'S BITTERS cure dyspepsia and liver complaint. The explanation is plain, simple, philosophical, and *true*.

TO PHYSICIANS.

New York, August 15th, 1867.

ALLOW ME TO CALL YOUR ATTENTION to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement by liquor obtained from Juniper Berries, containing very little sugar, a small proportion of spirit, and more palatable than any now in use. The active properties are by this mode extracted.

Buchu, as prepared by Druggists generally, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopeia, nor is it a syrup—and therefore can be used in cases where fever or inflammation exists. In this you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,

I am, very respectfully,

H. T. HELMBOLD,

Chemist and Druggist of 16 years' experience in Philadelphia, and now located at his Drug and Chemical Warehouse, 594 Broadway, New York.

(From the largest Manufacturing Chemists in the World.)

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise. WILLIAM WEIGHTMAN.

Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU for weakness arising from indiscretion. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or forebodings of evil, in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

The Constitution once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or Insanity ensues.

HELMBOLD'S FLUID EXTRACT BUCHU, in affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, whether arising from habits of dissipation, imprudence in, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies, Copaiba and Mercury, in all these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. Price $1.25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

Schenck's Pulmonic Syrup,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover St., Boston, Wholesale agents. For sale by all druggists. jan4—1y eu

I will give one thousand dollars reward for any case of the following diseases, which the Medical Faculty have pronounced incurable, that Dr. Richau's Golden Remedies will not cure. Dr. Richau's Golden Balsam No. 1, will cure Syphilis in its primary and secondary stages, such as old Ulcers, Ulcerated Sore Throat, Sore Eyes, Skin Eruptions and Soreness of the Scalp, eradicating disease and mercury thoroughly. Dr. Richau's Golden Balsam No. 2, will cure the third stages; and I defy those who suffer from such diseases to obtain a radical cure without the aid of this medicine, which does not prevent the patients from eating and drinking what they like. Price of either No. 1 or 2: $5 per bottle, or two bottles, $9.

Dr. Richau's Golden Antidote, a safe and radical cure for Gonorrhea, Gravel and all Urinary Derangements, accompanied with full directions. Warranted to cure. Price, $3 per bottle.

Dr. Richau's Golden Elixir d'Amour, a radical cure for General Debility in old or young, imparting energy to those who have led a life of sensuality,— Price $5 per bottle, or two bottles, $9.

On receipt of price, by Mail or Express, three remedies will be shipped to any place. Prompt attention paid to all correspondents. None genuine without the name of Dr. Richau's Golden remedies,—D. B. Richards, sole proprietor, blown in Glass of bottles.

To Whom it May Concern.

"This world is a very good world to spend in,
This world is a very good world to lend in;
But to beg, or to borrow, or get a man's own,
'Tis the very worst world that ever was known."

The above quoted rhyme is of ancient date, but unfortunately holds true to this year of grace 1869.

The subscriber has on his Books unpaid at this date a large number of accounts which by all principles of morality and integrity should have been paid by the 1st of January.

He now makes the following proposals:

1st—Call and pay your just debts.

2d—If you cannot do it, call and say so, fixing some probable time of payment.

3d—If you are sober and industrious and the world has gone hard with you, call and get a receipt in full without payment. Failing to do either of the above, do not insult the dignity of our common humanity, by dodging up alleys and corners on meeting him in the street.

Interest at 7 per cent. per annum will be charged on and after March 1st, from January 1st, 1869.

LEGAL NOTICES.

Sheriff's Sale.

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS.

Newport, sc.

SHERIFF'S OFFICE, Newport, Feb. 27, 1869.

BY virtue and in pursuance of an Execution issued out of the Court of Justices of the City of Newport, on the 11th day of December, A. D. 1868, on a judgment rendered on the thirtieth day of October, A. D. 1868, in favor of JOHN O. PECKHAM of the City and County of Newport, and State aforesaid, and against SOLOMON BRAMAN, of the same Newport, for the sum of $35.35, debt, and $2.40 costs of suit, amounting in the whole to the sum of $37.75, for which Execution remains to be done, I did, on the nineteenth (19th) day of December, A. D. 1868, at ten o'clock in the forenoon, levy the said Execution on all the right, title and interest which the aforesaid Solomon Braman had in and to the following parcels of real estate situate in said Newport, and bounded and described as follows, to wit: A certain lot of land with the buildings thereon standing, bounded Southerly on Poplar street 50 feet; Westerly on Second street 100 feet; Northerly on land of Wm. D. Southwick 50 feet; and Easterly on land about to be described and partly on land of Henry H. Young 100 feet; also, a parcel of land bounded Easterly on the above described lot of land 50 feet; Northerly on land of Wm. D. Southwick 50 feet; Easterly on land of Wm. Holt 50 feet; and Southerly on land of Henry H. Young 50 feet; and NOTICE is hereby given that I will sell the said attached estate at a public auction to be held on the said attached premises, on MONDAY the 22d day of March, A. D. 1869, at 10 o'clock in the forenoon, for the satisfaction of the said Execution, debt, interest, costs, my own fees and all contingent expense unless the same be sooner satisfied. WM. D. $500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S
PRIVATE MEDICAL OFFICE,

No. 21 Endicott Street, Boston, Mass., is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is **No. 21**, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

Your Super-phosphate is entitled to the confidence of the agricultural community.
S. DANA HAYES, *State Assayer of Mass.*

FROM JUDGE PIERREPONT.

163 FIFTH AVENUE, N. Y., Nov. 2, 1868.

WM. L. BRADLEY. Dear Sir:—You ask how the Super-phosphate which I had of you last spring proved in its use upon my country place upon the Hudson River.

I say in reply that my gardener used it on the lawn, on the piece of meadow and on the Indian corn.

Its effect was rapid and wonderful. It is far the cheapest manure of which I have any knowledge.

Yours truly,
EDWARDS PIERREPONT.

FROM HON. GEORGE B. LORING.

I have used every variety and have found none which operated more effectually and permanently than yours.

FROM COL. LANG, OWNER OF THE CELEBRATED STALLION GEN. KNOX.

NORTH VASSALBORO', Me., Dec. 8, 1868.

W. L. BRADLEY. Dear Sir—When I met you in Portland, I was unable to answer in full your queries as to the satisfaction found in the use of your Super-phosphate, as my crops were not harvested.

I am gratified with the result of its application upon corn, potatoes and roots, and have arranged for a liberal supply for the coming season.

I am, respectfully yours,
T. S. LANG.

FROM REV. HENRY WARD BEECHER.

A second season's trial confirms the good opinion which I formed of it both for farm and garden crops.

STATE REFORM SCHOOL OF CONNECTICUT,
WEST MERIDEN, CONN., Dec. 12, 1868.

WM. L. BRADLEY. Dear Sir:—We much prefer your Super phosphate on the various crops we raise on our farm to any now in market.

I am happy to recommend yours as a superior article to all who use fertilizers.

We shall order an increased amount for next year's use. Yours truly,
E. W. HATCH, Supt.

WILLIMANTIC, Conn., Nov. 13, 1868.

WM. L. BRADLEY. Dear Sir:—I have used your Super Phosphate the past two years, with other fertilizers in the same field, to test the quality of each, and do not hesitate to pronounce yours the best.—My business leads me to examine the crops on a large number of farms besides my own, and I find as a general rule that where Phosphate is used, it increases the corn and potato crop from one-third to one half.

I am fully convinced that no farmer can afford to plant without it. Yours truly,
ROBERT BROWN, Real Estate Agent.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837.

No. 78 State St., opp. Kilby St., Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy* and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"MR. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

WATERS'

NEW SCALE PIANOS,

With Iron Frame, Overstrung Bass and Agraffe Bridge,

MELODEONS AND CABINET ORGANS,

The best Manufactured: Warranted for 6 years.

Fifty New and Second hand Pianos, Melodeons and Organs of six first-class makers, *at low prices for Cash*, or, one-third cash and the balance in Monthly Instalments. Second-hand Instruments at great bargains. Illustrated Catalogue mailed.—Warerooms, 481 Broadway, New York.
HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument*. Stronger endorsement we could not give.—*Home Journal.*

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

DR. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

The Medicine for

WHOOPING COUGH!

DODD'S NERVINE AND INVIGORATOR gives agreeable and almost instant relief in the spasms of Whooping Cough. This is a complaint that all children are expected to have; and when it comes, strange to say, they are left to fight it through as they best can, little or nothing being done to break its intensity or help the sufferers along. And when it is reflected that very many of the diseases of older and adult years have their origin in the tear and strain of Whooping Cough, this neglect would be utterly unaccountable but for the fact that children's diseases, like many of the weaknesses of women, are considered so much a matter of course that people have become stoically unconcerned about them. Let them cough it through, as we did, seems generally to be the prevailing word. Whooping Cough is a Nervine disease, and Dodd's Nervine and Invigorator treats it with COMPLETE SUCCESS. Mothers, TRY IT, and save your little ones the worst agony of this distressing affection. A rare and beneficent medicine.

Important Certificate.

—o—

Speedy Cure for Whooping Cough.

J. W. PECKETT, Esq., Brooklyn, N. Y.

I am not in the habit of taking advertised medicines, nor of certifying to their curative effects when they come under my observation; but I feel constrained to make an exception in favor of DODD'S NERVINE AND INVIGORATOR, a medicine I have used in my family for some time past. My little daughter had been suffering from severe Whooping Cough for several weeks, and was so much broken of rest at night that—by excessive coughing and loss of sleep—her constitution and general health seemed to be giving away. Various remedies or palliatives were recommended by intimate neighbors, but nothing was tried until my attention was called by a physician not now in practice to Dodd's Nervine. This we procured and commenced using at once—with an effect immediate and surprising. As the convulsions were hardest at night, we began by giving the Nervine on her going to bed. The first dose administered made its impression; the cough became less frequent, and very much less severe—she soon got her accustomed sleep—rapidly revived in health and vigor—and in a few days was as well as ever. What was left of the Whooping Cough was thereafter of no trouble. Of course I cannot but consider Dodd's Nervine and Invigorator an invaluable remedy for this distressing malady. I may add, that I have since recommended it to several family friends, in like circumstances, and have found it in every case to be equally successful. It needs only to be known to come into universal demand.

COLGATE & CO'S TOILET SOAPS.

I want to rouse each sleepy head,
Who stand upon the brink,
Where yawning gulfs disclose the dead,
Who might, but did not, think.

I want to warn the living ones
Who blindly grope along,
Ye fathers, daughters, mothers, sons,
What perils round you throng!

Look out, my reader, are you free,
Or do you wear the mark?
Most all are blind and cannot see,
Yes, groping in the dark.

Catarrh, a demon in the head,
Consumption is its son;
Kills hosts, yes, countless millions, dead,
Perhaps you may be one.

That hacking, hawking, spitting, sneeze,
Catarrh affects your head,
Matter and slime in throat or nose,
Runs down your throat instead.

Your lungs and liver soon will show,
Consumption has its birth;
Catarrh, its sire, will feed it too,
Till you return to earth.

If colds affect your head and throat,
Annihilator buy;
Now don't forget what I have wrote,
Or think this subject dry.

WOLCOTT'S ANNIHILATOR cures
Catarrh—the demon flies;
It saves the *lungs*, good health insures,
And Catarrh quickly dies.

I want to gratify my friends,
Who wish to understand
About PAIN PAINT, its use, its ends,
And why its great demand.

I want to show you, plain as day,
Why PAIN PAINT stops all pain,
That you may never have to say
"I'll not try paint again."

PAIN PAINT will cool but never stain;
Pumps inflammation out;
'Tis harmless on the breast or brain,
A trial stops all doubt.

When inflammation leaves the *frame*,
All pain will cease at once;
Remove the cause, 'tis all the same;
None doubts unless a dunce.

The pores will ope and drink PAIN PAINT;
Absorbents fill with ease;
Restores the weak, the sick, the faint,
The greatest skeptic please.

Evaporation cools the place
As inflammation flies;
Hot blood at the absorbent's base
Makes PAINT in vapor rise.

'Tis thus PAIN PAINT removes all doubt,
Removes the very cause
By pumping inflammation out;
On this we rest our cause.

Wolcott's Pain Paint is sold at all Drug Stores; also, Wolcott's Annihilator, for the cure of Catarrh and Colds in the head. Sent by Express on receipt of the money, at 181 Chatham Square, N. Y. R. L. Wolcott, Prop. — f24—4w

The **ÆTNA** has the largest paid up Capital of any Company in the United States, and has paid more losses than any other. It is the great standard Company of the country, and is celebrated everywhere for its honorable method of doing business. Its rates are no higher, ordinarily, than is charged by others, though it does not pretend to compete with irresponsible institutions.

COE'S COUGH BALSAM.

This long tried and popular Remedy is again called to the attention of the public. As often as the year rolls around, the proprietors annually make their bow to the people, and remind them that amongst the many things required for the health, comfort and sustenance of the family through the long and tedious months of winter, Coe's Cough Balsam should not be forgotten. For years it has been a household medicine—and mothers anxious for the safety of their children, and all who suffer from any disease of the throat, chest and lungs, cannot afford to be without it. In addition to the ordinary four ounce so long in the market, we now furnish our mammoth family size bottles, which will, in common with the other size, be found at all Drug Stores.

FOR CROUP.

The Balsam will be found invaluable, and may always be relied upon in the most extreme cases.

WHOOPING COUGH.

The testimony of all who have used it for this terrible disease during the last ten years, is, that it invariably relieves and cures it.

SORE THROAT.

Keep your throat wet with the Balsam—taking little and often—and you will very soon find relief.

HARD COLDS AND COUGHS

Yield at once to a steady use of this great remedy.—It will succeed in giving relief where all other remedies have failed.

Soreness of the Throat, Chest and Lungs.

Do not delay procuring and immediately taking Coe's Cough Balsam, when troubled with any of the above named difficulties. They are all premonitory symptoms of Consumption, and if not arrested, will sooner or later sweep you away into the valley of shadows from which none can ever return.

IN CONSUMPTION.

Many a care-worn sufferer has found relief and to-day rejoices that her life has been made easy and prolonged by the use of Coe's Cough Balsam.

IN SHORT,

The people know the article, and it needs no comment from us. It is for sale by every Druggist and Dealer in Medicines in the United States.

THE ATTENTION OF THE PEOPLE

IS CALLED TO THE

World's Great Remedy.

Coe's Dyspepsia Cure.

This preparation is pronounced by Dyspeptics as the only known remedy that will surely cure that aggravating and fatal malady. For years it swept on its fearful tide, carrying before it to an untimely grave, its millions of sufferers.

Coe's Dyspepsia Cure has Come to the Rescue.

Indigestion, Dyspepsia, Sick Headache, Sourness or Acidity of Stomach, Rising of Food, Flatulency, Lassitude, Weariness, finally terminating in Death,

Are as surely cured by this potent remedy, as the patient takes it. Although but five years before the people, what is the verdict of the masses? Hear what Lester Sexton, of Milwaukee, says:

[*From LESTER SEXTON, of Milwaukee.*]

MILWAUKEE, Jan. 24, 1868.

Messrs. C. G. Clark & Co., New Haven, Conn.:

Both myself and wife have used Coe's Dyspepsia Cure, and it has proved perfectly satisfactory as a remedy. I have no hesitation in saying that we have received great benefit from its use.

Very respectfully,
(Signed,) LESTER SEXTON.

A GREAT BLESSING.

[*From Rev. L. F. WARD, Avon, Lorain Co., O.*]

Messrs. Strong & Armstrong, Druggists, Cleveland.

Gentlemen:—It gives me great pleasure to state that my wife has derived great benefit from the use of Coe's Dyspepsia Cure. She has been for a number of years greatly troubled with Dyspepsia, accompanied with violent paroxysms of constipation, which so prostrated her that she was all the while, for months, unable to do anything. She took, at your instance, Coe's Dyspepsia Cure, and has derived GREAT BENEFIT FROM IT, and is now comparatively well. She regards this medicine as a great blessing. Truly yours,

Jan. 13th, 1868. — L. F. WARD.

CLERGYMEN.

The Rev. Isaac Aiken, of Allegheny, testifies that it has cured him, after all other remedies had failed.

DRUGGISTS.

Any druggist in the country will tell you, if you take the trouble to enquire, that every one that buys a bottle of Coe's Dyspepsia Cure from them speaks in the most unqualified praise of its great medicinal virtues.

Coe's Dyspepsia Cure

Will also be found invaluable in all cases of Diarrhea, Dysentery, Colic, Summer Complaints, Griping, and in fact every disordered condition of the stomach.

Sold by Druggists in city or country everywhere at $1 per bottle, or by application to
